C Class – may judge categories 1- 4, 6, 7,10,12,& 13.

Article 5: Procedure for Competitions

All categories (with the exception of category 9)

5.1 In all categories (with the exception of category 9), in round 1, the contestant/team chooses the kata they wish to perform from the list of available katas noted at Annex 1.

5.2 The contestant/team responds to the calling of his/her/their name by going directly to the edge of the competition area and bows. On the signal of the centre judge, the contestant/team moves forward to the starting position and bows. The centre judge then shouts "Kata". The contestant/team spokesperson states the name of the kata they wish to perform. The centre judge MUST then repeat the name of the kata and gives the command to start the kata.

5.3 The contestant/team will hold their last position until the centre judge calls "Noare". Upon completion of the kata, the contestant/team will return to the designated line and await an award from the panel.

5.4 The centre judge will call for a decision "Hantei" and blow a sharp blast on the whistle. All 5 judges in unison will hold up their scorecards facing towards the table officials. The table official will announce the scores and, when the scores have been registered, the centre judge will blow a further sharp blast on the whistle. The judges will then show the scorecards to the spectators. The centre judge will blow a third blast whereupon the scorecards will be lowered.

5.5 The table official will announce the ACTUAL score. The contestant/team will bow to the centre judge before leaving the competition area.

5.6 The contestants who are successful in proceeding to Round 2 and any subsequent rounds will choose another kata and submit their choice of kata to the table official before the start of the round. Note that a kata cannot be repeated in any subsequent rounds.

5.7 In Round 2, the contestant will wait for their name to be called then stand on the edge of the competition area directly in front of the centre judge. The same procedure as outlined in Articles 5.2 – 5.5 will be followed.

Category 9

5.8 In Round 1 the contestants shall wait for their names to be called by the table official whereupon they shall stand on the edge of the competition area and bow. On the signal from the centre judge the contestant will move forward to the designated line and bow to the centre judge.

5.9 In Round 1 the contestant will be required to perform a compulsory kata. The centre judge will choose a card upon which a kata is written (from the list of compulsory kata) and then call out the name of the kata to be performed. The contestant MUST then repeat the name of the kata and wait for the command to begin.

5.10 Upon completion of the kata, the contestant will return to the designated line and await an award from the judging panel.

5.11 In Round 2 and any subsequent rounds the same procedure as outlined in Articles 5.2 – 5.5 will be followed.

Article 6: Scoring

6.1 The result of a kata competition is determined by the summation of points accumulated by contestants or teams.

6.2 The scoring range for each category is as follows:

CATEGORIES 1,2,3,4,6,7,10,12 & 13 - Range from 5.0 to 7.0 points
(ie any category featuring contestants at green belt or below)

CATEGORIES 5,8,9,11,14 & 15 - Range from 6.0 to 8.0 points
(ie any category featuring brown or black belt contestants)

6.3 The starting point when considering an appropriate score for a particular kata should be the “mean” score for the relevant scoring range (i.e. if the scoring range is 5.0-7.0 the “mean” score is 6.0, if the scoring range is 6.0-8.0 the “mean” score is 7.0).

6.4 Points should then be added or deducted after considering the following criteria:

TECHNIQUE – The kata must be performed with competence and the contestant must demonstrate a clear understanding of the principle contained within it.

SKILL – the contestant must demonstrate correct focus, use of power, speed, good balance and correct breathing.

PRESENTATION – The performance should also be evaluated with a view to discerning other points.

6.5 The full scoring range should be utilised.

6.6 The kata competition is organised into 3 rounds. The first round selects 16 or 8 contestants, the second round selects 3 contestants and the third round selects the winner and final placings. The Chief Referee, Technical Committee or Tournament Committee on the day may alter or change the number of contestants for the first round depending on the number of competitors in a particular category.

6.7 On the command of the centre judge the judges, in unison, display the score by means of points. The card bearing the points awarded is held in the right hand.

6.8 When the scorekeeper summates the score for each contestant or team in a round, the highest and lowest scores awarded are deleted. The three remaining scores are added together to calculate the ACTUAL score.

6.9 In the event of a tie in Round 1, the lowest score is added to the actual score. If a tie persists, the highest score is incorporated. In the event of a continuing tie, the contestants must perform a further kata of their choice from the relevant list at Annex 1. Note that a contestant or team cannot perform the same kata twice.

6.10 The scores from the Round 2 are combined with the scores from the Round 1 to determine the competitors who will proceed to the final.

6.11 In the event of a tie in Round 2, the lowest score from both rounds is added to the actual score (ie the lowest score from rounds 1 & 2). If a tie persists, the highest score from both rounds is incorporated. In the event of a continuing tie, the contestants must perform a further kata of their choice from the relevant list at Annex 1. Note that a contestant or team cannot perform the same kata twice.

6.12 In the final round, only the scores awarded during that round are used to determine the final placings, ie scores acquired in previous rounds are disregarded.

Article 7: Disqualification

7.1 A contestant is disqualified if they vary, interrupt or bring a kata to a halt or if they perform a kata different from that drawn or announced.

7.2 The centre judge will announce hansoku or shikkaku when disqualifying a contestant or team.

7.3 When hansoku is called the contestant may still take part in the individual or team event if they have entered more than one event.

7.4 When shikkaku is called the contestant or team members cannot take part in the tournament for the remainder of the event.

Article 8: Interpretation

8.1 Any situation not defined by these rules shall be resolved by the Chief Referee, Technical Committee or Tournament Committee on the day.
